RE: Duke Energy Carolinas, LLC's Supplemental Customer Assistance Recovery Rider Update, Docket No. E-7, Sub 1276

Ms. Dunston:

Enclosed for filing in the above-referenced docket is Duke Energy Carolinas, LLC's ("DEC" or "the Company") supplemental update to the Company's October 1, 2025 Request for Approval of DEC's Customer Assistance Recovery Rider ("Supplemental CAR Rider Update"). DEC respectfully requests that the Commission enter an order approving the proposed rates by early December to give the Company time to apply the rates by their effective date of January 1, 2026.

The Company is filing the Supplemental CAR Rider Update to reflect adjusted calculations concerning its removal of inadvertent credits to 221 ineligible DEC customers. Enclosed with this filing is a revised Attachment A reflecting these adjustments. DEC has agreed to remove the inadvertent credits totaling $23,193 from its revenue requirement and proposed rates, holding ratepayers harmless. This adjustment was made following the Company's recent discovery that $23,193 of DEC's Customer Assistance Program ("CAP") credits were inadvertently given to customers who were not eligible to participate in the CAP program. This situation occurred where an eligible customer terminated service at a premises around the same time they enrolled in CAP. As a result of this unique circumstance, the Company inadvertently applied CAP credits to an ineligible landlord or ineligible tenant starting services at the premises. Eligible customers were not impacted by this error and continued to receive their credits without interruption.

The Company has provided a copy of the Supplemental CAR Rider Update to the Public Staff and they have no objections to this filing. If you have any questions, please do not hesitate to contact me. Thank you for your attention to this matter.

Sincerely,

Monekia G. Franklin

(b) From Page 1, Attachment A in Docket E-7 Sub 1276, Line 2 and 5
(c) From Page 2, Attachment A in Docket E-7 Sub 1276, Line 49 and 50 as filed on October 30, 2024
(d) From Page 2, Attachment A in Docket E-7 Sub 1276, Line 2 and 5 as filed on October 30, 2024

Note Rates are designed such that when applied to projected usage, the revenue requirement ask will be fully recovered during the billing period. Rounded rates are used for billing purposes and as such, slight variance will exist between the revenue requirement ask and the expected revenue that will be collected from customers.
